WELCOME TO THE IAGA-IASPEI JOINT SCIENTIFIC MEETING

Dear partners and industrial representatives,

We are delighted to extend a warm invitation to you to become a sponsor of the next IAGA-IASPEI Joint Assembly, set to take place in Lisbon, Portugal, from 31 August to 5 September 2025. This landmark event will bring together leading scientists, researchers, and professionals to discuss the latest advancements and innovations in Geomagnetism, Aeronomy, Seismology, and Physics of the Earth's Interior.

Your sponsorship presents a unique opportunity to showcase your brand to a highly engaged and diverse international audience. As a sponsor, you will not only gain unparalleled visibility and networking opportunities but also demonstrate your commitment to supporting scientific research and collaboration.

Furthermore, Lisbon, with its rich history, vibrant culture, and stunning architecture, provides an inspiring backdrop for this significant gathering. Known for its welcoming atmosphere and excellent infrastructure, Portugal's capital offers an ideal setting for networking and collaboration alongside opportunities to explore its beautiful surroundings, exquisite cuisine, and unique heritage.

We look forward to discussing how we can partner to make the IAGA-IASPEI 2025 Joint Assembly an outstanding success. Please do not hesitate to contact us for more detailed information on sponsorship opportunities and benefits.

Thank you for considering this exciting opportunity. We hope to welcome you as a valued sponsor in Lisbon.

Warm regards,

Local IAGA-IASPEI 2025 Organizing Committee

The International Association of Geomagnetism and Aeronomy (IAGA)

IAGA (www.iaga-aiga.org) is an international scientific association that studies terrestrial and planetary magnetism and space physics.

IAGA is concerned with the understanding and knowledge that result from studies of the magnetic and electrical properties of:

- the Earth's core, mantle and crust
- the middle and upper atmosphere
- the ionosphere and the magnetosphere
- the Sun, the solar wind, the planets and interplanetary bodies

Geomagnetism

of Geomagnetism and Aeronomy

The International Association of Seismology and Physics of the Earth's Interior (IASPEI)

IASPEI (www.iaspei.org) is an international organization that promotes the study of earthquakes and other seismic sources, the propagation of seismic waves, and the Earth's internal structure, properties, and processes.

The scientific work of IASPEI may be organized under major topics, namely:

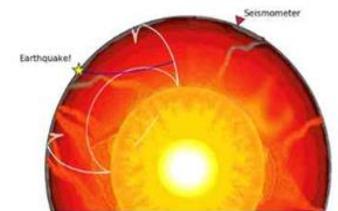

- Data Acquisition, Analysis, and Dissemination
- Earthquake Hazard Analysis, Earthquake Prediction, and the Interface with Earthquake Engineering
- Earth Structure and the Physics of the Earth's Interior

These topics collectively contribute to a comprehensive understanding of seismic phenomena and their implications for society and the natural world. IASPEI's work involves collaboration with scientists, engineers, and policymakers to enhance earthquake preparedness, response, and resilience globally.

VENUE

Instituto Superior de Engenharia de Lisboa (ISEL)

This emblematic Institute, surrounded by remarkable green areas, is the oldest engineering school in Portugal, with more than 160 years of existence.

ISEL is a large campus in a privileged area of Lisbon, 5 minutes away from Bela Vista Park, Parque das Nações and the airport, with bus stops and an underground station on your doorstep. At ISEL, we are as close to the city centre as we are to both the beach and the countryside.

- ISEL is located in Lisboa Oriental Subway
- Red line - Chela's station
- A direct line between the International Airport and ISEL
